Precast Concrete Box Culverts

[Precast Concrete Box Culverts](#)

Precast concrete box and 3-sided culverts are incredibly versatile. They can be manufactured in a wide range of sizes and configurations and can be used to convey stormwater or wastewater, create short span-bridges and access ways, or for rainwater retention or detention, to name only a few applications. In addition, precast concrete 3-sided culverts allow for natural streambeds to remain intact.
